

**CERTIFICATION OF CONFORMANCE
TO OPENID CONNECT CONFORMANCE PROFILE**

Name of Entity ("Implementer") Making this Certification: ZmartZone IAM

Software or Service ("Deployment") Name & Version #: lua-resty-openidc 1.5.1

OpenID Connect Conformance Profile: Basic Relying Party

Conformance Test Suite Software: rp.certification.openid.net version 1.0.7, November 17, 2017

Test Date: November 17, 2017

1. **Certification:** Implementer has tested the Deployment (including by successfully completing the validation testing using the Conformance Test Suite Software) and verified that it conforms to the OpenID Connect Conformance Profile, and hereby certifies to the OpenID Foundation and the public that the Deployment conforms to the OpenID Connect Conformance Profile as set forth above.
2. **Maintenance:** If subsequent changes to the Deployment, or other information or testing, indicates that the Deployment is not in conformance, Implementer will either correct the nonconformance (and update this Certification if necessary) or revoke this Certification.
3. **Incorporation of Terms:** The Terms and Conditions for Certification of Conformance to an OpenID Connect Conformance Profile, located at <http://openid.net/certification/>, are incorporated by reference in this Certification, and Implementer agrees to be bound by such Terms and Conditions.

Authorized Signature:  _____

Name: Hans Zandbelt

Title: Founder / IAM Architect

Date: November 17, 2017

Implementer's Authorized Contact Information	
Name:	Hans Zandbelt
Title:	Founder / IAM Architect
Phone:	+31 6 5050 4236
Email:	hans.zandbelt@zmartzone.eu
Address:	Henk Obdeijnstraat 6
City, State/Province, Postal Code	Lettele, 7434 SL
Country	Netherlands

Secondary Contact's Information (Optional)

Country	

Optional: Please provide the following information if you want your implementation to be included in the list of certified implementations at <http://openid.net/developers/certified/>. Providing this information is not required for OpenID Certification.

URL at which people interested in using your implementation can learn about it and/or obtain it:

<https://github.com/zmartzone/lua-resty-openidc>

1-2 sentence description of the implementation:

Lua implementation to make NGINX operate as an OpenID Connect RP or OAuth 2.0 RS using the Lua extension scripting features (<http://wiki.nginx.org/HttpLuaModule>) which are for instance part of OpenResty (<http://openresty.org/>)

The programming language of the software and deployment environment for it, if applicable (e.g., "JavaScript for Node.js", "Binaries for iOS", or "Service"):

Lua for NGINX

Licensing terms of the software, if applicable (e.g., "Apache 2.0" or "Proprietary"):

Apache 2.0
