

OpenID Connect Provider Certification

Configuration

- Basic (code)
 - Static webfinger
 - Dynamic discovery
 - Static registration
 - Crypto support ['sign']
- If you want to change your setup you can do it here (/pedit)

Certification Test List

Choose the next test flow you want to run from this list:

Status	Name	Description	Info
Response Type			
 (https://op.certification.openid.net:60092/OP-Response-Missing)	(OP-Response-Missing)	Authorization request missing the response_type parameter	 (https://op.certification.openid.net:60092/test_info/OP-R
 (https://op.certification.openid.net:60092/OP-Response-code)	(OP-Response-code)	Request with response_type=code	 (https://op.certification.openid.net:60092/test_info/OP-R
Discovery			
 (https://op.certification.openid.net:60092/OP-Discovery-Config)	(OP-Discovery-Config)	Publishes openid-configuration discovery information	 (https://op.certification.openid.net:60092/test_info/OP-D
 (https://op.certification.openid.net:60092/OP-Discovery-JWKS)	(OP-Discovery-JWKS)	Keys in OP JWKS well formed	 (https://op.certification.openid.net:60092/test_info/OP-D
 (https://op.certification.openid.net:60092/OP-Discovery-claims_supported)	(OP-Discovery-claims_supported)	Verify that claims_supported is published	 (https://op.certification.openid.net:60092/test_info/OP-D
 (https://op.certification.openid.net:60092/OP-Discovery-jwks_uri)	(OP-Discovery-jwks_uri)	Verify that jwks_uri is published	 (https://op.certification.openid.net:60092/test_info/OP-D
ID Token			
 (https://op.certification.openid.net:60092/OP-IDToken-C-Signature)	(OP-IDToken-C-Signature)	Does the OP sign the ID Token and with what	 (https://op.certification.openid.net:60092/test_info/OP-ID
 (https://op.certification.openid.net:60092/OP-IDToken-kid)	(OP-IDToken-kid)	IDToken has kid [Basic, Implicit, Hybrid]	 (https://op.certification.openid.net:60092/test_info/OP-ID
Client Authentication			

 (https://op.certification.openid.net:60092/OP-ClientAuth-Basic-Static)	(OP-ClientAuth-Basic-Static)	Access token request with client_secret_basic authentication	 (https://op.certification.openid.net:60092/test_info/OP-C)
 (https://op.certification.openid.net:60092/OP-ClientAuth-SecretPost-Static)	(OP-ClientAuth-SecretPost-Static)	Access token request with client_secret_post authentication	 (https://op.certification.openid.net:60092/test_info/OP-C)
Userinfo Endpoint			
 (https://op.certification.openid.net:60092/OP-UserInfo-Body)	(OP-UserInfo-Body)	UserInfo Endpoint access with POST and bearer body	 (https://op.certification.openid.net:60092/test_info/OP-U)
 (https://op.certification.openid.net:60092/OP-UserInfo-Endpoint)	(OP-UserInfo-Endpoint)	UserInfo Endpoint access with GET and bearer header	 (https://op.certification.openid.net:60092/test_info/OP-U)
 (https://op.certification.openid.net:60092/OP-UserInfo-Header)	(OP-UserInfo-Header)	UserInfo Endpoint access with POST and bearer header	 (https://op.certification.openid.net:60092/test_info/OP-U)
claims Request Parameter			
 (https://op.certification.openid.net:60092/OP-claims-essential)	(OP-claims-essential)	Claims request with essential name claim	 (https://op.certification.openid.net:60092/test_info/OP-c)
display Request Parameter			
 (https://op.certification.openid.net:60092/OP-display-page)	(OP-display-page)	Request with display=page	 (https://op.certification.openid.net:60092/test_info/OP-d)
 (https://op.certification.openid.net:60092/OP-display-popup)	(OP-display-popup)	Request with display=popup	 (https://op.certification.openid.net:60092/test_info/OP-d)
nonce Request Parameter			
 (https://op.certification.openid.net:60092/OP-nonce-NoReq-code)	(OP-nonce-NoReq-code)	Login no nonce, code flow [Basic]	 (https://op.certification.openid.net:60092/test_info/OP-n)
 (https://op.certification.openid.net:60092/OP-nonce-code)	(OP-nonce-code)	ID Token has nonce when requested for code flow	 (https://op.certification.openid.net:60092/test_info/OP-n)
prompt Request Parameter			
 (https://op.certification.openid.net:60092/OP-prompt-login)	(OP-prompt-login)	Request with prompt=login	 (https://op.certification.openid.net:60092/test_info/OP-p)
 (https://op.certification.openid.net:60092/OP-prompt-none-LoggedIn)	(OP-prompt-none-LoggedIn)	Request with prompt=none when logged in [Basic, Implicit, Hybrid]	
 (https://op.certification.openid.net:60092/OP-prompt-none-NotLoggedIn)	(OP-prompt-none-NotLoggedIn)	Request with prompt=none when not logged in	 (https://op.certification.openid.net:60092/test_info/OP-p)
redirect_uri Request Parameter			
 (https://op.certification.openid.net:60092/OP-redirect_uri-NotReg)	(OP-redirect_uri-NotReg)	Sent redirect_uri does not match a registered redirect_uri	 (https://op.certification.openid.net:60092/test_info/OP-re)
scope Request Parameter			
 (https://op.certification.openid.net:60092/OP-scope-All)	(OP-scope-All)	Scope requesting all claims	 (https://op.certification.openid.net:60092/test_info/OP-s)

 (https://op.certification.openid.net:60092/OP-scope-address)	(OP-scope-address)	Scope requesting address claims	 (https://op.certification.openid.net:60092/test_info/OP-s)
 (https://op.certification.openid.net:60092/OP-scope-email)	(OP-scope-email)	Scope requesting email claims	 (https://op.certification.openid.net:60092/test_info/OP-s)
 (https://op.certification.openid.net:60092/OP-scope-phone)	(OP-scope-phone)	Scope requesting phone claims	 (https://op.certification.openid.net:60092/test_info/OP-s)
 (https://op.certification.openid.net:60092/OP-scope-profile)	(OP-scope-profile)	Scope requesting profile claims	 (https://op.certification.openid.net:60092/test_info/OP-s)
Misc Request Parameters			
 (https://op.certification.openid.net:60092/OP-Req-NotUnderstood)	(OP-Req-NotUnderstood)	Request with extra query component	 (https://op.certification.openid.net:60092/test_info/OP-R)
 (https://op.certification.openid.net:60092/OP-Req-acr_values)	(OP-Req-acr_values)	Providing acr_values	 (https://op.certification.openid.net:60092/test_info/OP-R)
 (https://op.certification.openid.net:60092/OP-Req-claims_locales)	(OP-Req-claims_locales)	Providing claims_locales	 (https://op.certification.openid.net:60092/test_info/OP-R)
 (https://op.certification.openid.net:60092/OP-Req-id_token_hint)	(OP-Req-id_token_hint)	Using prompt=none with user hint through id_token_hint	
 (https://op.certification.openid.net:60092/OP-Req-login_hint)	(OP-Req-login_hint)	Providing login_hint	
 (https://op.certification.openid.net:60092/OP-Req-max_age=1)	(OP-Req-max_age=1)	Requesting ID Token with max_age=1 seconds restriction	
 (https://op.certification.openid.net:60092/OP-Req-max_age=10000)	(OP-Req-max_age=10000)	Requesting ID Token with max_age=10000 seconds restriction	
 (https://op.certification.openid.net:60092/OP-Req-ui_locales)	(OP-Req-ui_locales)	Providing ui_locales	
OAuth behaviors			
 (https://op.certification.openid.net:60092/OP-OAuth-2nd)	(OP-OAuth-2nd)	Trying to use authorization code twice should result in an error	 (https://op.certification.openid.net:60092/test_info/OP-C)
 (https://op.certification.openid.net:60092/OP-OAuth-2nd-30s)	(OP-OAuth-2nd-30s)	Trying to use authorization code twice with 30 seconds in between uses must result in an error	 (https://op.certification.openid.net:60092/test_info/OP-C)
 (https://op.certification.openid.net:60092/OP-OAuth-2nd-Revokes)	(OP-OAuth-2nd-Revokes)	Trying to use authorization code twice should result in revoking previously issued access tokens	 (https://op.certification.openid.net:60092/test_info/OP-C)

Legends

	The test has not been run yet.
	The test succeeded.
	Warning, something was not as expected.
	The test failed.
	The test flow wasn't completed. This may have been expected or not.
	Signals the fact that there is trace information available for the test.
