

**CERTIFICATION OF CONFORMANCE
TO OPENID CONNECT CONFORMANCE PROFILE**

Name of Entity ("Implementer") Making this Certification: Classmethod

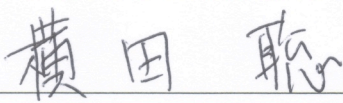

Software or Service ("Deployment") Name & Version #: Barista v.1.8.2

OpenID Connect Conformance Profile: Config OpenID Provider

Conformance Test Suite Software: op.certification.openid.net Version: 2.0.8

Test Date: Oct 25, 2017

1. **Certification:** Implementer has tested the Deployment (including by successfully completing the validation testing using the Conformance Test Suite Software) and verified that it conforms to the OpenID Connect Conformance Profile, and hereby certifies to the OpenID Foundation and the public that the Deployment conforms to the OpenID Connect Conformance Profile as set forth above.
2. **Maintenance:** If subsequent changes to the Deployment, or other information or testing, indicates that the Deployment is not in conformance, Implementer will either correct the nonconformance (and update this Certification if necessary) or revoke this Certification.
3. **Incorporation of Terms:** The Terms and Conditions for Certification of Conformance to an OpenID Connect Conformance Profile, located at <http://openid.net/certification/>, are incorporated by reference in this Certification, and Implementer agrees to be bound by such Terms and Conditions.

Authorized Signature: 

Name: Satoshi Yokota

Title: CEO

Date: Nov 1, 2017

Implementer's Authorized Contact Information	
Name:	Daisuke Miyamoto
Title:	Senior Software Engineer
Phone:	+81-3-6853-8855
Email:	miyamoto.daisuke at classmethod.jp
Address:	Sanposakuma building 8F, 1-11 Kandasakuma-cho
City, State/Province, Postal Code	Chiyoda-ku, Tokyo 101-0025
Country	Japan

Secondary Contact's Information (<i>Optional</i>)	
Name:	Masaya Saito
Title:	Software Engineer
Phone:	+81-3-6853-8855
Email:	saito.masaya at classmethod.jp
Address:	Sanposakuma building 8F, 1-11 Kandasakuma-cho
City, State/Province, Postal Code	Chiyoda-ku, Tokyo 101-0025
Country	Japan

Optional: Please provide the following information if you want your implementation to be included in the list of certified implementations at <http://openid.net/developers/certified/>. Providing this information is not required for OpenID Certification.

URL at which people interested in using your implementation can learn about it and/or obtain it:

<http://classmethod.jp/>

1-2 sentence description of the implementation:

Highly scalable OpenID Connect authentication server built on AWS.

All functionality is offered through APIs over HTTP, using the REST architectural style.

The programming language of the software and deployment environment for it, if applicable (e.g., "JavaScript for Node.js", "Binaries for iOS", or "Service"):

Java

Licensing terms of the software, if applicable (e.g., "Apache 2.0" or "Proprietary"):

Proprietary
