CERTIFICATION OF CONFORMANCE
TO OPENID CONNECT CONFORMANCE PROFILE

Name of Entity ("Implementer") Making this Certification: _Curity AB_

Software or Service ("Deployment") Name & Version #: _Curity Identity Server 2.3.1_

OpenID Connect Conformance Profile: _Basic OP_

Conformance Test Suite Software: _2.0.10_

Test Date: _Dec. 20, 2017_

1. Certification: Implementer has tested the Deployment (including by successfully completing the validation testing using the Conformance Test Suite Software) and verified that it conforms to the OpenID Connect Conformance Profile, and hereby certifies to the OpenID Foundation and the public that the Deployment conforms to the OpenID Connect Conformance Profile as set forth above.

2. Maintenance: If subsequent changes to the Deployment, or other information or testing, indicates that the Deployment is not in conformance, Implementer will either correct the nonconformance (and update this Certification if necessary) or revoke this Certification.

3. Incorporation of Terms: The Terms and Conditions for Certification of Conformance to an OpenID Connect Conformance Profile, located at http://openid.net/certification/, are incorporated by reference in this Certification, and Implementer agrees to be bound by such Terms and Conditions.

Authorized Signature: _____

Name: _TRAVIS SPENCER_   _Mark Dobrinic_

Title: _CEO_   _Software Engineer_

Date: _Dec. 20, 2017_   _Dec 20th, 2017_

Implementer's Authorized Contact Information	
Name:	TRAVIS SPENCER
Title:	CEO
Phone:	+46 8-410-737-70
Email:	info@curity.io
Address:	Sankt Eriksgatan 46A
City, State/Province, Postal Code	Stockholm 112 34
Country	Sweden

Secondary Contact's Information *(Optional)*	
Name:	Mark Dobrinić
Title:	Software Engineer
Phone:	+46 8-410 737 70
Email:	mark@curity.io
Address:	St. Eriksgatan 46A
City, State/Province, Postal Code	Stockholm, 112 34
Country	SWEDEN

Optional: Please provide the following information if you want your implementation to be included in the list of certified implementations at http://openid.net/developers/certified/. Providing this information is not required for OpenID Certification.

URL at which people interested in using your implementation can learn about it and/or obtain it:

https://curity.io

1-2 sentence description of the implementation:

The Curity Identity Server is a complete, standards-based, Identity Management System. Using OAuth, OpenID Connect, JSON Web Tokens, SCIM and others, it provides standards-based integrations with apps and APIs.

The programming language of the software and deployment environment for it, if applicable (e.g., "JavaScript for Node.js", "Binaries for iOS", or "Service"):

Stand-alone commercial server

Licensing terms of the software, if applicable (e.g., "Apache 2.0" or "Proprietary"):

Proprietary.
