

**CERTIFICATION OF CONFORMANCE  
TO OPENID CONNECT CONFORMANCE PROFILE**

**Name of Entity (“Implementer”) Making this Certification:** IBM

**Software or Service (“Deployment”) Name & Version #:** Open Liberty 18.0.0.4

**OpenID Connect Conformance Profile:** Basic Relying Party

**Conformance Test Suite Software:** rp.certification.openid.net 1.1.2

**Test Date:** September 27, 2018

1. **Certification:** Implementer has tested the Deployment (including by successfully completing the validation testing using the Conformance Test Suite Software) and verified that it conforms to the OpenID Connect Conformance Profile, and hereby certifies to the OpenID Foundation and the public that the Deployment conforms to the OpenID Connect Conformance Profile as set forth above.
2. **Maintenance:** If subsequent changes to the Deployment, or other information or testing, indicates that the Deployment is not in conformance, Implementer will either correct the nonconformance (and update this Certification if necessary) or revoke this Certification.
3. **Incorporation of Terms:** The Terms and Conditions for Certification of Conformance to an OpenID Connect Conformance Profile, located at <http://openid.net/certification/>, are incorporated by reference in this Certification, and Implementer agrees to be bound by such Terms and Conditions.

Authorized Signature: AY

Name: Adam Yoho

Title: Staff Software Engineer

Date: October 26, 2018

Implementer’s Authorized Contact Information	
Name:	Chunlong Liang
Title:	Software Developer
Phone:	+1 (512) 286-7236
Email:	<a href="mailto:liangch@us.ibm.com">liangch@us.ibm.com</a>
Address:	11501 Burnet Road
City, State/Province, Postal Code	Austin, TX 78758
Country	United States of America

Secondary Contact's Information ( <i>Optional</i> )	
Name:	
Title:

**Optional:** Please provide the following information if you want your implementation to be included in the list of certified implementations at <http://openid.net/developers/certified/>. Providing this information is not required for OpenID Certification.

**URL at which people interested in using your implementation can learn about it and/or obtain it:**

<https://openliberty.io/config/oidcLogin.html>

**1-2 sentence description of the implementation:**

An Open Liberty server can be configured to act as a specification-compliant OpenID Connect Relying Party by enabling the socialLogin-1.0 feature. Additional options in the Liberty server configuration allow server administrators to further modify and adapt the behavior of the RP based on their needs.

**The programming language of the software and deployment environment for it, if applicable (e.g., “JavaScript for Node.js”, “Binaries for iOS”, or “Service”):**

Java

**Licensing terms of the software, if applicable (e.g., “Apache 2.0” or “Proprietary”):**

Eclipse Public License 1.0
