

**CERTIFICATION OF CONFORMANCE
TO OPENID CONNECT CONFORMANCE PROFILE**

Name of Entity ("Implementer") Making this Certification: Microsoft

Software or Service ("Deployment") Name & Version #: Azure AD v2.0 Endpoint for organizations, internal deployment 2.1.8528.12

OpenID Connect Conformance Profile: Form Post OpenID Provider

Conformance Test Suite Software: op.certification.openid.net 2.1.7

Test Date: 1/15/2019

1. **Certification:** Implementer has tested the Deployment (including by successfully completing the validation testing using the Conformance Test Suite Software) and verified that it conforms to the OpenID Connect Conformance Profile, and hereby certifies to the OpenID Foundation and the public that the Deployment conforms to the OpenID Connect Conformance Profile as set forth above.
2. **Maintenance:** If subsequent changes to the Deployment, or other information or testing, indicates that the Deployment is not in conformance, Implementer will either correct the nonconformance (and update this Certification if necessary) or revoke this Certification.
3. **Incorporation of Terms:** The Terms and Conditions for Certification of Conformance to an OpenID Connect Conformance Profile, located at <http://openid.net/certification/>, are incorporated by reference in this Certification, and Implementer agrees to be bound by such Terms and Conditions.

Authorized Signature: 

Name: Hirsch Singhal

Title: Program Manager

Date: 1/15/2019

Implementer's Authorized Contact Information	
Name:	Hirsch Singhal
Title:	Program Manager
Phone:	+1 (425) 722-8464
Email:	hirsin@microsoft.com
Address:	One Microsoft Way
City, State/Province, Postal Code	Redmond, WA, 98052
Country	USA

Secondary Contact's Information (Optional)	
Name:	Mike Jones
Title:	Standards Architect
Phone:	+1 (425) 706-8846
Email:	mbj@microsoft.com
Address:	One Microsoft Way
City, State/Province, Postal Code	Redmond, WA, 98052
Country	USA

Optional: Please provide the following information if you want your implementation to be included in the list of certified implementations at <http://openid.net/developers/certified/>. Providing this information is not required for OpenID Certification.

URL at which people interested in using your implementation can learn about it and/or obtain it:

<https://docs.microsoft.com/en-us/azure/active-directory/develop/active-directory-v2-protocols>

1-2 sentence description of the implementation:

The v2.0 endpoint of Azure AD is a standards-conformant endpoint for accessing resources registered in Azure AD. It is compatible with existing application registrations, and allows applications to support logins from both personal accounts (Microsoft accounts or "MSA"s) and work or school accounts ("AAD accounts")

The programming language of the software and deployment environment for it, if applicable (e.g., "JavaScript for Node.js", "Binaries for iOS", or "Service"):

Licensing terms of the software, if applicable (e.g., "Apache 2.0" or "Proprietary"):
