OpenID®

CERTIFICATION OF CONFORMANCE
TO AN OPENID CONFORMANCE PROFILE

Name of Entity ("Implementer") Making this Certification: Ergon Informatik AG

Software or Service ("Deployment") Name & Version #: Airlock IAM version 7.1

OpenID Conformance Profile: Basic OpenID Provider

Conformance Test Suite Software: Version: 2.3.2

Test Date: February 3rd, 2020

1. Certification: Implementer has tested the Deployment (including by successfully completing the validation testing using the Conformance Test Suite Software designed for the OpenID Conformance Profile listed above) and verified that the Deployment conforms to the OpenID Conformance Profile, and hereby certifies to the OpenID Foundation and the public that the Deployment conforms to the OpenID Conformance Profile identified above. Implementer also certifies that the additional information set forth on the attached Appendix is true and correct.

2. Maintenance: If subsequent changes to the Deployment, or other information or testing, indicates that the Deployment is not in conformance, Implementer will either correct the nonconformance (and update this Certification if necessary) or revoke this Certification.

3. Incorporation of Terms: The Terms and Conditions for Certification of Conformance to an OpenID Conformance Profile, located at http://openid.net/certification/, are incorporated by reference in this Certification, and Implementer agrees to be bound by such Terms and Conditions.

4. **Privacy Consent; Consent to Publication of Certification.** Implementer acknowledges and agrees that the personal data submitted in connection with this Certification will be processed in accordance with the OpenID Privacy Policy posted on the OIDF website at opened.net. Implementer also agrees that OIDF may publish the entire contents of the certification application submitted, and a copy of this Agreement as signed by Implementer, on the OIDF website, and also represents that it has obtained appropriate consent under applicable law for such publication from all individuals listed in such application and this Agreement.

APPENDIX
(For use with Certification to OpenID Connect or FAPI Conformance Profiles)

Optional: Please provide the following information if you want your implementation to be included in the list of certified implementations at http://openid.net/developers/certified/. Providing this information is not required for OpenID Certification.

URL at which people interested in using your implementation can learn about it and/or obtain it:
https://www.airlock.com/

1-2 sentence description of the implementation:
Airlock IAM is an Identity and Access Management solution that has been on the market since 15 years. Its primary customer base can be found in markets with very high requirements on both user experience and security like the financial and the insurance markets. As a product it provides support for many different authentication methods and it is highly configurable with regards to integration with standard and legacy backend systems. Airlock IAM is often deployed in conjunction with Airlock WAF and Airlock API. All products are in-house developed by Ergon Informatik AG in Switzerland.

The programming language of the software and deployment environment for it, if applicable (e.g., "JavaScript for Node.js", "Binaries for iOS", or "Service"):
Software developed in Java, Deployment as docker container or self-contained application on Red Hat/CentOS Linux

Licensing terms of the software, if applicable (e.g., "Apache 2.0" or "Proprietary"):
Proprietary
