

WG UPDATE

# FastFed

Tim Cappalli  
Microsoft

December 2021  
OpenID Foundation Workshop

---

---

# What is FastFed?

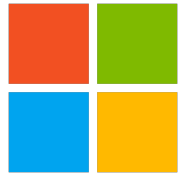

- A protocol to simplify configuration and lifecycle of federation relationships between identity providers and application providers
  - Solves top pain points for administrators:
    - Metadata exchange
    - SAML certificate rollover
    - SCIM configuration
-

---

---

# Active Participants

---

---

# Current & Future Work Items (2022)

- Handshake with OpenID Connect
  - IdP-initiated flows
  - Addressing ID feedback
  - SCIM Authentication
  - FastFed OpenID Connect Profile
  - SSE configuration
  - Industry and ecosystem engagement
-
